No. 3611.

FROM LIEUT.-COL. W. J. BUCHANAN, B.A., M.D., D.P.H., I.M.S.,
Inspector-General of Prisons, Bengal,

TO THE CHIEF SECRETARY TO THE GOVERNMENT OF BENGAL,
POLITICAL DEPARTMENT.

Dated Calcutta, the 1st April 1911

SIR,

I HAVE the honour to submit my report on the administration of the jails of Bengal for the year 1910. Major John Mulvany, I.M.S., officiated for me till the 28th February, and I was in charge during the rest of the year.

2. *Judicial statistics.*—The following table shows the number of prisoners of all classes who passed through the jails and subsidiary-jails of the province during the year, as compared with the previous year :—

| CLASS OF PRISONERS. | Remained on 1st January | | Received during the year, including direct admissions and transfers. | | | | Remained on 31st December | | Average daily strength of the year. | | | |
|---------------------|-------------------------|---------|--|---------|--------|---------|---------------------------|---------|-------------------------------------|---------|-----------|---------|
| | 1909. | | 1910 | | 1909. | | 1910. | | 1909. | | 1910. | |
| | Male. | Female. | Male. | Female. | Male. | Female. | Male. | Female. | Male. | Female. | Male. | Female. |
| Convicts | 14,457 | 376 | 13,704 | 368 | 49,327 | 1,947 | 46,630 | 1,653 | 13,708 | 318 | 13,107 | 317 |
| Under-trials | 9,307 | 73 | 1,453 | 78 | 36,776 | 1,718 | 39,569 | 1,356 | 1,463 | 73 | 1,524 | 66 |
| Civil | 37 | — | 33 | — | 423 | — | 434 | 1 | 32 | — | 37 | — |
| State | — | — | — | — | — | — | — | — | — | — | — | — |
| Total | 16,861 | 449 | 15,217 | 433 | 85,416 | 3,665 | 79,643 | 3,010 | 15,217 | 450 | 15,768 | 373 |

| | | | | | | | | | | | 17,108 20 | 400 00 |
| | | | | | | | | | | | 16,903 61 | — |

3. Under the orders conveyed in Home Department telegram, dated the 25th May 1910, the total number of convicts who were granted remission of sentence on the occasion of the King-Emperor George the Fifth's accession to the Throne was 7,971 males and 222 females. Of these, 1,415 convicts received 7 days' remission; 1,328 convicts 15 days' remission; 1,804 convicts 21 days' remission; 1,280 convicts one month's remission; 708 convicts two months' remission; 588 convicts 3 months' remission; and 770 convicts 5 months' remission. In addition to these two special class prisoners and three dacoits were allowed remission of sentence under the special orders of Government.

It cannot be said that the grant of remission on this occasion was at all comparable to similar concessions granted on previous occasions. It conferred comparatively little benefit on the prisoners and imposed a very considerable amount of work on the Jail Department, and on District Magistrates. The above figures may be compared with the 3,334 prisoners actually released on 1st January 1903 at the time of the Delhi Coronation

Durbar ; and on the fiftieth Anniversary of the taking over of the Government of India by the Crown 1,150 prisoners were released and 8,977 were granted remission. I am of opinion that if it is thought good to give such concessions at all they should be liberal and have an *immediate* effect. To tell a prisoner who has been, say, seven years in jail that *five or six years hence* he will get out some five or six months earlier is not at the time any great cause of rejoicing to him and he cares little.

4. *Statement No. 1 gives particulars regarding the number of convicted prisoners and their disposal during the year.*—The number of convicts at the beginning of the year was 14,661 against 14,833 in the previous year, 25,704 were imprisoned during the year against 30,357 in 1909, and 749 were received by transfer from other provinces. The number of prisoners received by transfer within the province was 15,799 against 20,298 in 1909. Convicts were disposed of as follows :—532 were released on appeal ; 19,919 on expiry of sentence ; 5,955 under the remission rules ; 188 under orders of Government ; 634 were transported ; 11 were transferred to lunatic asylums and reformatory schools ; 4 prisoners who had escaped remained uncaptured ; 10 were executed, and 251 died. The number remaining at the close of the year and the daily average number for the year were 12,504 and 13,163·21 against 14,061 and 15,065·94 in 1909.

This fall in the total population after the two crowded years of 1908 and 1909 has been a great relief to the Department and must be mainly attributed to the good season of 1909-10. This is borne out by an examination of the figures in statement D where the number of prisoners under the various crimes are shown. In a crowded year the numbers increase chiefly owing to an increase in petty thefts and minor offences, such as might be expected in a population affected by the pressure of scarcity and high prices. The number of convictions fluctuate from year to year. In 1907, there was a considerable decrease followed in 1908 by a marked rise in the number of convictions, again followed by a slight decline in 1909, and a still further decline in 1910. It is not wise to expect the present decline to be more than a temporary one.

5. *Transportation of convicts.*—Of the 634 convicts deported to Port Blair during the year, 575 were males and 59 females. The number transported from Bengal was 90 against 115 in 1909, consisting of 68 male and 8 female life and 13 male and 1 female term convicts. The large total is due to the fact that, at considerable inconvenience, we took in a large number of Bombay transportation prisoners into the Alipore Jail and despatched them from Calcutta. The "term" male convicts were all political prisoners and were deported by special orders of Government. No female life convict of the sweeper class was available for deportation to the Andamans during the year in accordance with Bengal Government order No. 3316J., dated the 15th September 1908.

6. *Statement No. II gives particulars regarding the religion, age, state of education and previous occupation of the convicts admitted during the year*—

(a) *Religion.*—Of the 25,704 convicts admitted during the year, 67·47 per cent. were Hindus, 24·21 per cent. were Muhammadans, 1·28 per cent. Christians, 0·22 per cent. were Buddhists and Jains, and 6·82 per cent. belonged to all other classes, against 70·57, 22·49, 1·00, 0·34 and 5·60 per cent. respectively in 1909.

(b) *Age.*—The number of convicts of less than 16 years of age admitted during the year was 308 or 1·20 per cent. of the total admissions against 324 or 1·07 per cent. in 1909. Of these 45 were received at the Presidency Central Jail, 10 at Alipore, 32 at Howrah and 14 at Purulia. No less than 99 or 32·14 per cent. were received at subsidiary jails. The number admitted between the ages of 16 and 40 years was 75·70 per cent., between 40 and 60 years was 20·48 per cent., and above 60 years of age was 2·62 per cent., against 77·47, 19·09 and 2·37 per cent. respectively in 1909.

Age census—In February 1911 I had an age census made in all District and Central Jails with the following results :—out of 12,835 convicts whose age was taken, there were 444 or about 3·45 per cent. under 20 years of age ; nearly 2,000 or 15·58 per cent. from 20 to 25 years ; over 5,275 (or nearly 41·09 per cent.) were from 26 to 35 years ; over 3,000 or 23·37 per cent. were from 36 to 45 ; 1,360 from 46 to 55 years and 671 were over 55 years of age ; or if we take the

prime of life to be from 25 to 45 years we find 8,398 or 65·41 per cent. to be men of this age.

(c) *Education*.—The number of convicts able to read and write was 8·66 per cent., able to read only 1·67 per cent., and illiterate 89·67 per cent., against 8·42, 1·87 and 89·71 per cent. respectively in the previous year.

(d) *Previous occupation*.—The percentage of male convicts employed under Government, Municipal or other local authorities was 1·72, professional persons, 4·58; in service or performing personal offices, 8·02; engaged in agriculture or with animals, 46·38; commerce and trade, 4·27; employed in mechanical arts, manufacture and engineering, 1·77; and miscellaneous persons not classed otherwise, 33·26, against 1·95, 3·46, 7·81, 47·61, 3·56, 2·29 and 83·32 respectively in 1909.

7. *Female convicts*.—The number admitted direct from courts during the year was 990 against 1,250 in 1909. Of these 708 were Hindus, 122 Muhammadans, 1 Buddhist and Jain, 31 Christians and 131 belonged to all other classes: 12 were under 16 years of age; 731, 16 to 40 years; 225, 40 to 60 years and 28 above 60 years; 399 were married, 16 unmarried, 461 widows and 120 prostitutes; 21 were able to read and write, and 975 were illiterate; 12 female convicts died during the year against 13 in the previous year and the daily average number for the year was 345·50 against 370·86 in 1909.

8. *Depôt for juvenile female convicts at Bhagalpur*.—There were two juvenile female convicts at the beginning of the year and one was received from the Balasore Jail. None having been released, three remained at the end of the year. The registered accommodation for this class of convicts is seven, which is sufficient. All prisoners admitted into this ward are usually of class A, and no arrangements for separating A from B class prisoners are in existence. There is a special matron in charge of these young girls and they are kept apart from adult female convicts.

9. *Statement No. III shows the nature and length of sentence of convicts admitted during the year*.—Of those imprisoned during the year, 36·62 per cent. had sentences not exceeding one month; 23·82 per cent. over one month and not exceeding three months; 13·76 per cent. over three months and not exceeding six months; 15·37 per cent. over six months and not exceeding one year; 5·93 per cent. over one but not exceeding two years; 3·43 per cent. over two but not exceeding five years; 0·92 per cent. above five but not exceeding ten years; 0·01 per cent. over ten years, 0·14 per cent. were sentenced to transportation for a term, 0·33 per cent. for life and 0·07 per cent. were sentenced to death; 2,603 were sentenced to simple imprisonment, 22,741 to rigorous imprisonment, 219 to rigorous imprisonment with solitary confinement, and 81 to rigorous imprisonment with whipping.

10. *Statement No. IV gives particulars regarding the convicts admitted during the year who had been previously convicted*.—The number of re-convicted prisoners was 4,289 and the ratio per cent to total number of convicts admitted was 16·68 against 5,167 and 17·02 respectively in the previous year. The number of youthful offenders under 15 years of age, (Reformatory School Act, 1897) increased from 100 to 155, of whom 29 had been previously convicted.

An examination of the figures for re-convictions for the past few years shows but little change, viz:—

| | | | | | | | |
|------|-----|------|------|------|-----|-----|------|
| 1904 | ... | ... | 13·4 | 1907 | ... | ... | 15·9 |
| 1905 | ... | ... | 16·3 | 1908 | ... | ... | 20·0 |
| 1906 | ... | ... | 14·7 | 1909 | ... | ... | 17·0 |
| | | 1910 | ... | ... | ... | ... | 16·6 |

These are but small figures when compared with the percentage of previously convicted prisoners in England in the year 1910, viz., 57 per cent. of male and 77 per cent. of female prisoners.

11. *Identification of habituals*.—The following statement prescribed in paragraph 3 of Home Department Resolution No. ^{2- Judicial} ~~24-24~~, dated the 25th

February 1885, gives particulars regarding the identification of habitual criminals:—

| Serial No. | JAILS. | Number of convicts admitted during the year. | Number of convicts in column 3 identified as habitual offenders before conviction, and whose previous convictions appear in the record of proceedings at the trial. | Number of convicts in column 3 not so identified and whose previous convictions did not so appear but who were, after arrival in jail, identified as having been previously convicted. | Number of prisoners who confessed themselves to be habituals. | Total number of habituals. |

| Total for 1909 ... | | 30,357 | 4,868 | 171 | 251 | 5,290 |

12. *Statement No. XVIII.—Undertrial prisoners.*—The number admitted during the year was 30,955 against 37,484 in the previous year. Of these, 15,904 were released; 12,836 were convicted and sentenced; 2,164 were transferred,

and 25 died against 46 in 1909. The numbers remaining at the beginning of and end of the year were 1,554 and 1,580, respectively, against 2,439 and 1,554 in 1909. The daily average number for the year was 1,605·4, against 2,004·58 in the previous year. There was no escape amongst under-trial prisoners in jail during the year. Many of the undertrial wards are still frequently overcrowded, but not to such a marked extent in 1910 as in the previous years.

13. *Average period of detention of under-trial prisoners in jails.*—The following statement shows the period of detention in both "Sessions" and "other cases" of under-trial prisoners confined in the jails of Bengal during the year :—

| JAILS. | Sessions cases. | All other cases. | JAILS. | Sessions cases. | All other cases. |
|--------------------------------|-----------------|------------------|---------------------|-----------------|------------------|
| 1. Burdwan ... | 44·87 | 22·86 | 20. Chapra ... | 21·52 | 14·98 |

14. *Civil prisoners.*—The number remaining in jail at the beginning of the year was 32. Four hundred and twenty were received direct from the courts against 414 in 1909, and five were received by transfer, making a total of 457 prisoners. Of these, 415 were released and five were transferred, leaving a balance of 37. There was no death or escape among these prisoners.

15. *SUBSIDIARY JAILS.*—These small jails are in general charge of the local Subdivisional Officer as Superintendent and the local medical officer as Deputy Superintendent, but practically the discipline and safe custody of the prisoners is in the hands of a 3rd grade head warder. The staff of warders is small, only 4, and these men work hard and never get a whole night in bed. It cannot be said that the discipline of these tiny jails is good, but on the other hand prisoners are seldom detained in them for more than a few days after conviction, and these jails are of more importance as regards prisoners awaiting trial than as regards convicts.

Last April, in accordance with the Government of India's desire to relieve the medical officers of these jails from the clerical portion of their duties in these jails, a scheme was sanctioned to put in whole- or part-time clerks into these subsidiary jails.

In a majority of cases the Subdivisional Officers reported that part-time clerks were sufficient for the not very great office work in these jails and I am gradually replacing the whole-time clerks on Rs. 20 with part-time clerks on Rs. 12 per month as far as is possible. The pay of Rs. 20, with no prospects in the department, is not sufficient to attract a useful class of officers, hence I prefer a half-time clerk who receives Rs. 12 per month for the couple of hours' work he does in the morning in the subsidiary jails and for the rest of the day he is employed in some other Government office. He is, however, a mere clerk and the 3rd grade Head Warder still remains the man in charge practically.

I think the best way to manage these little jails would be for the Subdivisional Officer to be chief official visitor and to visit weekly as he is now required to do; to put in the local medical officer as Superintendent, and give him a clerk who would then be a sort of "jailer-clerk" and responsible for something more than writing up the books and registers. This is exactly the system which has been found as successful as it is cheap, in the case of the district jails at district head-quarters.

(1) *Convicts*.—The number remaining at the beginning of the year was 108; 10,357 were admitted direct from Court, and 337 by transfer, or a total of 10,802. Of this number 8,306 were transferred, 44 were released on appeal, 2,330 on expiry of sentence, 9 under the remission rules, 7 under orders of Government, 3 escaped and were not re-captured during the year, and 8 died, leaving a balance of 95 at the end of the year. The daily average number was 203·80, viz., 198·37 males and 5·43 females. The average period of detention was 6·89 days against 5·56 in 1909; it was, as before, the highest at Phulbani (34·59 days).

(2) *Under-trials*.—The number remaining at the commencement of the year was 628; 13,556 were received direct from Court, and 122 by transfer, making a total of 14,306. Of these, 6,790 were released, 5,469 were convicted and sentenced; 1,393 were transferred, and 12 died, leaving a balance of 642, viz., 615 males and 27 females, at the end of the year. The daily average number for the year was 652·03 (626·83 males and 25·20 females) against 857·29 in 1909. The average period of detention was 16·53 days against 16·81 days in 1909.

(3) *Civil prisoners*.—The number admitted during the year was 22, of whom 18 were released and 4 were transferred. The daily average number for the year was 0·23 against 0·12 in 1909.

(4) *Buildings*.—The amount spent on subsidiary jail buildings during the year was Rs. 35,033, viz., Rs. 33,160 by the Public Works Department and Rs. 1,873 by the Jail Department. In ordinary times most of these subsidiary jails are overcrowded and often grossly overcrowded, especially by big gang cases. It may be safely said that a majority of these subsidiary jails have not sufficient accommodation, in spite of the system adopted a few years ago of promptly transferring convicts to the *sadar* jail.

(5) *Expenditure*.—The total expenditure on subsidiary jails, including that on petty construction and repairs, was Rs. 1,32,903 as compared with Rs. 1,39,822 in 1909.

(6) *Manufactory transactions*.—The net profit on the working of the factories was Rs. 2,311 and the average profit per head of those employed on factory work, Rs. 12-14 as compared with Rs. 2,159 and Rs. 12-2, respectively, in 1909.

(7) *Inspection*.—The subsidiary jails which were not visited the prescribed number of times (70) during the year by the Superintendent, i.e., the Subdivisional Officer, were—Kurseong (5), Buxar (39), Kendrapara 52, Beguserai (55), Deoghur (63), Satkhira (63), and Madhubani (64).

16. *Jail buildings*.—In the Public Works Department budget for 1910-11 provision was made for Rs. 4,53,800 for original works and Rs. 53,000 for repairs. The amount expended during the year was for original works Rs. 3,30,781 and for repairs Rs. 60,871.

17. *Prisoners employed in jail buildings*.—The average number employed in jail buildings (including repairs) was 562·34 against 747·27 in 1909. The jails employing the largest number were the New Central Jail, Kalighat, 97·50; Midnapore, 82·01; Bhagalpur, 63·08; Chapra, 39·93. It is very desirable that Public Works Department officers should make more use of the unskilled labour of prisoners. Contractors certainly prefer outside labour, but in the interest of economy convict labour should be more used than it is.

18. *The warder guard*.—The number of punishments inflicted on warders during the year was 1,963 against 1,955 in 1909, viz., dismissal 42, degradation or suspension 55, fines 743, extra drill 589, censures and other minor punishments 517, against 37, 28, 691, 588 and 588 in the previous year. The judicial punishments numbered 17 against 23 in 1909. Seventy-three warders resigned against 32 in 1909. The question of circle reserves is still under consideration of Government. The circle reserve of warders sanctioned for the Ajitpore circle was practically used up in supplying the necessary warders now required in that jail and the Buxar Circle Reserve was insufficient for the needs of that circle owing to the fact that nine men had to be employed quasi permanently on duty over the large factory of that jail where 600 or 700 prisoners are congregated together and must have paid warders to supervise and control them.

I have represented these matters to Government and asked for additions to the permanent guards of these jails, so as to set free the circle reserves for the purpose for which they were intended, viz., to provide more or less trained warders for the numerous ever recurring demands of district and subsidiary jails for extra warders to guard special class prisoners or dangerous men, etc. The old system which still prevails of picking up the first likely youth met with, giving him a suit of uniform and then and there sending him off to a district jail to serve as a warder, is fatal to discipline and dangerous as regards the safe custody of prisoners. It has worked wonderfully well in previous years, but it is a radically wrong system and cannot be commended except on the score of economy. At the present day when unrest has certainly affected the general body of prisoners it is unwise and unsafe to trust to this primitive method of recruiting warders and it is not fair to the department, to expect it to guard important prisoners (as recently occurred when large batches of important prisoners were under trial in Jessore and Khulna districts) with raw youths picked up and persuaded to join, at the neighbouring *thana*. The new circle system partially tried as it has only been, must be more successful and more useful than the old system above described, and I think the time has come to extend these circle reserves to all other circles. The Police Department has regular training schools, and raw youths are not expected to do police work without training. We should, also, be able to train our raw warders before we entrust them with the important duty of guarding a gang of convicts.

The warders generally have been fairly content, though recruiting has been difficult owing to other employments being available, and the pay we offer but moderate. The great grievance of the warders is the absence of a pension—unless for head warders and to them only after promotion to such rank, which means a very small pension as such men seldom get promoted to this rank under 10 or 12 years' service.

I believe that the prospect of a pension would be far more to these men than an increase of pay. They ask to be placed on the same footing as the police, and they are recruited from the same class. At every visit to a jail I get a petition to this effect, and, I believe these men will never be content till they get this boon, and I strongly recommend Government to take this matter up.

19. *Statement No. V.—Escapes and recaptures.*—Thirteen convicts escaped during the year against 12 in 1909. Six escaped from outside the jail from garden gangs and seven from inside the subsidiary jail. Twelve were recaptured including three who had escaped in a previous year. The most important case was the escape of six prisoners (undertrials two and convicts four) from the small subsidiary jail at Satkhira. Owing to the neglect of the warder on duty these men broke open the old iron bar of a window and hid in the empty females' yard and then climbed the wall and got off. For this gross neglect of duty the local Magistrate considered four months' simple imprisonment to be a fitting punishment!

20. *Statement VI gives details of the offences committed by the convicts and the punishments inflicted on them during the year.*—The total number of offences committed and punishments inflicted was 27,827 against 32,495 in 1909; of these, 13 were dealt with by criminal courts against 15 in 1909. The number of offences relating to prohibited articles increased from 3,748 to 4,484 and those relating to work, to assaults, mutiny and escapes and to all other breaches of jail rules decreased from 13,235, 1,194 and 14,303 to 9,945, 1,059 and 12,326, respectively. The minor punishments inflicted by Superintendents were warnings 5,500, penal diet 1,073, confinement in cells 316, hand-cuffs and link-fetters 8,576 and "other punishments" 7,350 against 6,986, 1,278, 373, 10,556 and 8,569, respectively, in 1909. There was thus a decrease under all the headings. The major punishments were confinement in cells 411, penal diet with solitary confinement 19, fetters and hand-cuffing behind or to a staple 2,196, corporal punishments 98, combination of punishments 482, and other punishments 1,793 against 448, 95, 2,575, 122, 512 and 1,166, respectively, in 1909. Excepting "combination of punishments" and "other punishments" there was a decline under all the other heads. The ratio of total punishments to the daily average population was 211·30 per cent. against 215·58 in 1909.

21. *Corporal punishments.*—The following statement gives particulars regarding the corporal punishments inflicted during the year:—

| | Daily average number of male prisoners for the year 1910. | Total number of jail offences. | TOTAL NUMBER OF PRISONERS PUNISHED BY WHIPPING. | | | | | Percentage of grand total of column 3 to column 2. | Number of prisoners in whose cases whipping was directly or indirectly the effect of whipping. | Number of prisoners in whose cases whipping was directly or indirectly the effect of whipping. |
|-------|---|--------------------------------|---|------------------------------------|------------------------------------|------------------------------------|------------------------------------|--|--|--|
| | | | Five to 10 stripes. | Above 10 and not above 15 stripes. | Above 15 and not above 20 stripes. | Above 20 and not above 25 stripes. | Above 25 and not above 30 stripes. | | | |
| Total | 11,619·34 | 27,794 | ... | 81 | 33 | 20 | | 0·77 | 0·35 | |

The number of convicts whipped during the year was 98 against 122 in 1909. The ratio of whippings to total punishments likewise fell from 0·37 to 0·35. The Superintendents of 18 jails did not resort to corporal punishment at all. There is a steady decrease from year to year in resort to this valuable and necessary form of punishment; it is reserved for cases of violence, as in attacks upon the prisoners or on officers, or for persistent, determined and obstinate refusal to work and then only after the repeated failure of other forms of punishment.

22. *Conduct of casual and habitual offenders.*—The daily average number of A class convicts was 5,938·91 and B class 7,020·50. Out of a total of 27,794

offences, 9,831 or 83·37 per cent. were committed by the A class and 17,963 or 64·63 per cent. by the B or habitual classes, viz., offences relating to work 3,782 A and 6,202 B class; offences relating to prohibited articles 1,353 A and 3,130 B class; offences relating to assault, mutiny and escapes 803 A and 753 B class; offences relating to all other breaches of jail rules 4,443 A and 7,878 B class. In the matter of punishments inflicted by Superintendents of Jails the figures are for "minor punishments" 8,108 A class and 14,688 B class or 35·57 per cent. of the former against 64·43 per cent. of the latter B class. Under "major punishments" the figures are 1,723 and 3,275 or 34·47 and 65·53 per cent., respectively, for the two classes.

There is no doubt the B class or habitual prisoner is by far the worst offender in jail. He is often incorrigibly lazy and idle and is well up in all jail tricks whereby an honest day's work can be avoided, whereas the casual offender is usually to begin with a quiet person, amenable to discipline, and in the present day so often rapidly promoted to some post as a convict officer that he has less chance of breaking jail rules, etc.

When we consider that during the year well over 25,000 new convicts came to our jails in addition to over 14,000 remaining, it cannot be said that the number of punishments is excessive, that is, 27,000 punishments of all kinds, including warnings, for about 40,000 prisoners who came under jail discipline in the year.

23. *Imposition of fetters.*—Fetters for safe custody were imposed in 155 cases against 199 in 1909.

24. *Statement No. VII shows the employment of convicts as prison officers.*—Out of a daily average population of 12,817·71 male and 345·50 female convicts, an average of 903·56 or 7·04 per cent. male and 22·24 or 6·43 per cent. female convict-officers were employed during the year. The total number employed was 1,397, of whom 290 were convict-warders and 1,107 convict-overseers against 1,662, 300 and 1,362 respectively in 1909.

In previous reports (1907, paragraph 25; 1908, paragraphs 26 27; 1909, paragraph 26) I have called attention to the ever increasing difficulty in getting A class prisoners for these posts who are eligible under the rules (Jail Code, Chapter VI). During the past year I had lists made in each jail to show the number of prisoners who had to be appointed, but who were not eligible according to the not very rigorous rules for selection. Out of a total of 4,342 convict-officers appointed during the year, no less than 1,609 were *not eligible*.

Analysis of the different grades of convict-officers shows even more clearly how the convict-officer system has failed. The most important class of convict-officer is the convict-warder, and while 56 men duly eligible were appointed no less than 427 non-eligible men had to be given these posts of trust; of the night-guards, men supposed to be selected to help the paid warders on patrol at night, while 137 were eligible, 152 were not so; of the convict-overseers, 587 were eligible and 373 not eligible and of the night watchmen while 1,953 eligible men were appointed no less than 957 men not eligible were appointed to fill the vacant places.

This serious state of affairs cannot be met with by lowering the conditions for selection; these are as low as is consistent with safety and a proper performance of their duty, but it is not satisfactory to find that 37 per cent. of the prisoners employed are new men, not long enough in jail to comply with the conditions for eligibility, nor long enough to know and understand the jail routine. The convict-officer system is becoming impossible. A main merit has ever been that it was cheap, but I think the time has now come for largely increasing the paid warder staff and reducing our trust in convicts being their own warders.

25. *Prison privileges to convicts while undergoing sentence in jail.*—The experimental system of prison privileges introduced at the Presidency Jail was continued throughout the year. The number of prisoners who were offered the privileges further decreased from 241 to 169, the number in 1908 being 413. As mentioned in last year's report, Major Hunter, the Superintendent, is not a great believer in any such special privileges for ordinary native prisoners excepting with regard to books, letters and interviews, owing to the certainty of abuse and, with a staff largely consisting of the convicts themselves, this must be admitted.

26. *Statement C shows the working of the remission system.*—The number of convicts released during the year under the remission rules was 5,955 against 5,478 in 1909. The average remission gained was for one year's sentence, 28 days; two years, 50 days; over two years and not exceeding five years, 142 days; over five years, 290 days. The maximum remission gained according to length of sentence was one year, 50 days (Gaya and Alipore Central); two years, 163 days (Alipore); over two years and not exceeding five years, 367 days [Presidency (Native)]; over five years, 1,629 days (Midnapore). Thirteen convicts were released during the year, who came under the remission system, but failed to gain any remission, against 7 convicts in 1909.

The new system of giving remission by days is working well; it is appreciated and better understood by the convicts and certainly has saved the jail staff much clerical labour.

27. *Claude Martin Fund.*—The annual grant of Rs. 3,000 from this fund was received from the Commissioner of Police, Calcutta, during the year 1910. Including the balance of the previous year Rs. 3,310 were distributed amongst jails and Rs. 3,384-2 were expended by distribution to released prisoners. The number of convicts who received benefit from the fund during the year was 2,173 and the maximum amount given out to a prisoner was Rs. 10.

This fund has always been found extremely useful, but does not go far.

28. *Discharged Prisoners' Aid Society.*—Of 112 applications received 15 Europeans and 37 Indians were helped during the year in addition to 39 persons who were already employed at the Society's book-binding shop. Of those, 35 Indians were employed at the shop and the remainder were helped in various ways. Rupees 83-11-9 was spent as casual pecuniary help and 74 discharged prisoners earned Rs. 4,906-12-10 from the Society's workshops. The success of this Society largely depends on the personal interest taken in it by the Hon'ble Mr. Justice Stephen and Hon'ble Mr. Justice Holmwood.

29. *Statement No. IX.*—Expenditure in guarding and maintaining the prisoners in jails and subsidiary jails was Rs. 16,37,483 against Rs. 17,68,306 in 1909, a decrease of Rs. 1,30,823 due mainly to a smaller jail population and reduced price of food-stuff: the average cost per head (including cost of general supervision) was Rs. 110-9-11 against Rs. 103-5-9 in 1909.

30. (1) *Establishment.*—Under this head there was an expenditure of Rs. 5,56,935 against Rs. 4,95,282, an increase of Rs. 61,653, and the cost per head increased from Rs. 28-15-1 to Rs. 37-9-11 which is due to the entertainment of circle reserves of warders at Alipore and Buxar Central Jails and clerks at four Central Jails and also to the quartering of military guard at the three Calcutta Jails.

(2) *Dietary charges.*—The total expenditure under this head was Rs. 5,31,644 against Rs. 7,31,896, and the cost per head was Rs. 85 15-11 against Rs. 42-13-11 in 1909. This substantial decrease of Rs. 2,00,252 was due both to a drop in the prices of food-grains and to diminished jail population. There was thus a general decrease in cost over the previous year. In point of economy under this head Daltongunj again stands first (Rs. 27-11-10), Chapra second (Rs. 28-9-10) and Angul third (Rs. 29-11-2); four other jails which did well are Muzaffarpur (Rs. 29-11-5), Balasore (Rs. 29-11-10), Monghyr (Rs. 29-12-6), and Dumka (Rs. 29-14-6). Of central jails, Buxar was the cheapest (Rs. 31-1-7).

(3) *Hospital charges and clothing.*—There was a decrease under these heads from Rs. 1,11,513 to Rs. 1,06,759, and from Rs. 1,09,750 to Rs. 90,779 respectively, due to a healthier year and to less indents for clothing owing to large stock in hand from the crowded year 1909.

(4) *Sanitation charges.*—There was an increase under this head from Rs. 37,665 to Rs. 40,996, the excess of Rs. 3,331 due to the charge for the New Central Jail at Kalighat, which appears for the first time in these statements.

(5) *Charges for moving prisoners.*—There was a slight increase under this head from Rs. 36,903 to Rs. 37,094 due to loss overcrowding and consequently fewer transfers.

(6) *Miscellaneous Services and Supplies.*—There was an expenditure of Rs. 1,04,123 against Rs. 88,853 in 1909, an increase of Rs. 15,270 due mainly to the charges for the New Central Jail at Kalighat.

(7) *Travelling allowances.*—The expenditure increased from Rs. 10,013 to Rs. 10,526.

(8) *Contingencies*.—The expenditure under this head rose from Rs. 68,593 to Rs. 75,782, an increase of Rs. 7,189 due to the charges for the New Central Jail at Kalighat.

(9) *Extraordinary charges*.—There was again a decrease of Rs. 40 under this head, due mainly to diminished expenditure for conservancy and hospital dead stock and dairy live stock.

31. *Statement No. XI shows the employment of convicts in the Jails and Subsidiary Jails during the year*—The daily average number of convicts under sentence of labour decreased from 14,656.87 in 1909 to 12,886.92 in 1910. There was a small decline in the average number sick, while, on the other hand, the number convalescent and infirm increased slightly. The total balance available for work was 11,508.33 against 13,113.84 in 1909. The number of prison officers and servants rose from 6.32 and 13.63 per cent. to 7.18 and 14.23 per cent. respectively. The number employed on unremunerative labour was 433.70, on jail repairs and building work of all kinds 562.34, on gardening 712.91 and on preparing articles for jail consumption 1,143.68. On manufactures 5,891.44 or a percentage of 45.71 were employed against 6,818.57 or a percentage of 46.52 in 1909, the Presidency Jail heading the list with 69.64 per cent.

32. *Statement No. XII shows the net result of the employment of convict-labour in jails during the year*.—The total amount drawn from and paid into the treasury during the year was Rs. 11,06,654 and Rs. 13,59,086 respectively, showing cash earnings of Rs. 2,52,432 as compared with Rs. 1,58,012 in the previous year. The following jails show cash deficits:—New Central Jail, Rs. 11,456; Muzaffarpur, Rs. 1,852; Daltonganj, Rs. 50; or a total of Rs. 13,367; against Rs. 1,23,572 in 1909.

33. The following statement shows the net earnings for the year as compared with 1909 (Statement No. XIIA):—

Manufactory results including Subsidiary Jails.

| | 1910. | | Rs. | A. |
|--|----------------|-----|-----------|----|
| Cash balance in hand on 31st December | | | 6,071 | 6 |
| Manufactured articles on ditto ... | | | 4,41,098 | 4 |
| Raw materials on ditto ... | | | 4,72,471 | 9 |
| Outstanding bills due to jails on ditto ... | | | 1,06,804 | 11 |
| Plant and machinery on ditto ... | | | 5,14,957 | 12 |
| Remittances at market rates during the year | | | 15,11,986 | 7 |
| | Total | ... | 30,53,390 | 1 |
| Cash balance brought over from previous year | | ... | 7,808 | 5 |
| Manufactured articles on 1st January 1910 | | ... | 4,83,050 | 15 |
| Raw materials on ditto | | ... | 4,43,680 | 13 |
| Outstanding bills due to jails on ditto | | ... | 97,175 | 8 |
| Plant and machinery on ditto | | ... | 4,92,028 | 10 |
| Drawn from the treasury during the year, including pay of Superintendent of Jail Manufactures and expenses of Jail Depot | | | 10,98,785 | 7 |
| | Total | | 20,23,189 | 10 |
| | Total earnings | | 4,30,200 | 7 |
| Average earnings per head of those sentenced to labour as compared with Rs. 33-7 in 1909 | ... | ... | 33 | 6 |

34. *Average earnings in Central Jails*.—The average earnings per convict sentenced to labour in Central Jails during 1910 and 1909 are tabulated below:—

| | 1910. | 1909. |
|------------------|-----------|--------|
| | Rs. A. | Rs. A. |
| Presidency | ... 97 0 | 114 8 |
| Buxar | ... 62 4 | 55 12 |
| Midnapore | ... 53 1 | 43 0 |
| Bhagalpur | ... 40 0 | 33 9 |
| Alipore | ... 34 1 | 41 8 |
| New Central Jail | ... 23 10 | |
| Hamsirbagh | ... 21 3 | 25 7 |

35. *Alipore Central Jail.*—With a daily average population of 1,437 prisoners sentenced to labour the jail employed 729 or 50 per cent. on manufactures. The working of the factory shows a net cash earning of Rs. 47,183 against a deficit of Rs. 88,528 in 1909, and the excess of credits over debits was Rs. 48,977 against Rs. 69,326 in the previous year, the decrease being due (1) to the smaller number of prisoners employed, (2) to decrease in supply of gunny bags and cloth to consuming departments, (3) to a smaller demand for articles from other jails, and (4) to the closure of the jute mill for from two to three weeks for cleaning. The chief industries in this jail are (a) manufacture of gunnies in the jute factory, (b) iron and wood-work in the workshop, and (c) manufacture of mustard oil. The jute factory shows the comparatively small profit of Rs. 18,967 against Rs. 39,607 in 1909. The Supply and Transport Department did not place their usual orders for gunny bags and the demand from the Opium Department for gunny bags and from the Army Clothing Department for gunny cloth was considerably less than in the previous year. Moreover, there was an appreciable rise in the price of the raw material (jute) without any corresponding increase in the market price of the manufactured articles (gunnies). These conditions, it is well known, have been keenly felt by most of the local jute mills. The workshop has been busily engaged throughout the year in manufacturing various kinds of mechanical appliances, fittings and furniture, for the public and for jails throughout India. The profit for the year, however, was Rs. 22,915 against Rs. 32,169 in 1909. The decrease is due to the fall in the jail population caused partly by the King's remission which led to the earlier release of a large number of long-term prisoners, most of whom work in the Manufacturing Department. There was a small decrease in the profit on the manufacture of mustard oil, viz., Rs. 1,385 against Rs. 1,408 in 1909. The establishment of the jail was strengthened by the appointment of an assistant accountant, a draftsman and an engine driver, and the salaries of the factory staff were improved during the year with the sanction of Government.

36. *Quinine.*—The average number of boys employed on the quinine industry was 96 against 80 in the previous year. Six thousand five hundred pounds of quinine were obtained from the Cinchona Department during the year, of which 4,911 lbs. were made up into 34,379 parcels each containing 100 ten-grain pice-packets and 1,509 lbs. into 11,018 phials each containing three hundred $3\frac{1}{2}$ grain tablets. The sale of pice-packets and tablets through the Civil Surgeons in Bengal realized Rs. 27,800 against Rs. 40,332 in 1909, and the value of supplies to the Government of Eastern Bengal and Assam amounted to Rs. 36,577 only against Rs. 71,342 in the previous year. The large reduction in the value of supplies to Eastern Bengal is chiefly due to a new scheme having been introduced in that province for the distribution of quinine in the form of tablets *hydrochloride* which are being obtained from England as the jail is not in a position to undertake the supply of the drug in this form I presume that the falling off in the demands for quinine pice-packets and tablets from Bengal is to be attributed to the greater healthiness of the year 1910. We have now a complete equipment at the Juvenile jail and can turn out enormous quantities of quinine tablets and pice-packets. It is desirable that this should be realised as the Government of India has strongly taken up the question of the prevention of the malarial fevers by the popularization of quinine. We are now able and shall be glad to meet the demands of the Sanitary Department to a much greater extent than hitherto.

37. *Presidency Jail.*—With an average daily population of 1,013 natives and 33 Europeans sentenced to labour, the Jail employed 604 (or 59 per cent.) of the former and 17 (or 51 per cent.) of the latter on manufactures, against 665 (or 62 per cent.) of the former and 15 (or 55 per cent.) of the latter last year. The daily average number of convicts employed in the press was 557 natives and 13 Europeans against 625 and 12 in the previous year, showing a decrease of 67. The average number employed as compositors, however, increased from 63 in 1909 to 69 in 1910. The value of work done during the year amounted to Rs. 1,38,620 against Rs. 1,62,765 in 1909, while the number of hours earned on Task work was 800,696 against 870,974 in the previous year. This decrease is attributable to (1) the employment of fewer convicts in the press, (2) the increase in confidential work which is mostly urgent and

consequently interferes with the ordinary routine work, and (3) the large amount of work done during the year for the Census at cost price in accordance with Government orders, 8,500,000 census forms having been printed and despatched during this period. The minor industries of the Jail showed a net profit of Rs. 3,688 against Rs. 3,941 in the previous year, and including the press the total cash earnings amounted to Rs. 1,00,091 against Rs. 1,16,353 in 1909.

38. *New Central Jail.*—With a daily average of 751 convicts sentenced to labour, the jail employed 380, or 50 per cent. on manufactures. The result of the working of the jail shows a cash loss of Rs. 11,455, due to a large number of men having been employed in jute-teasing and book-binding for the Alipore Central Jail and the Presidency Jail Press for which work, no cash payment was made, and also to an accumulation of raw materials and manufactured articles at the close of the year, valued at Rs. 9,266 and Rs. 1,232, respectively, against a nil balance at the commencement of the year. The excess of credits over debits amounted to Rs. 17,157, viz., on binding work for the Presidency Jail Press Rs. 11,663, jute-teasing Rs. 2,619, oil-pressing Rs. 2,280, wheat-grinding Rs. 526 and cane-work Rs. 36. Some difficulty was experienced in utilizing the labour as sufficient work could not always be obtained from the Alipore and Presidency Jails.

39. *Husaribagh Central Jail.*—With a daily average population of 794 convicts sentenced to labour this jail employed 310 or 39 per cent. on manufactures, against 579 or 55 per cent. in the previous year. The working of the manufactory shows net cash earnings of Rs. 10,233 against a deficit of Rs. 5,596. The amount drawn from the treasury and the value of goods received from other jails aggregated Rs. 37,310 against Rs. 64,711 in 1909. Goods to the value of Rs. 24,767 were supplied to jails and other departments against Rs. 42,022 in 1909, while the amount realized in cash and paid into the treasury was Rs. 22,806 against Rs. 17,092 in 1909. The total excess of credits over debits was Rs. 16,887 against Rs. 26,765. The principal industries are blanket-weaving, cloth-weaving, aloo-pounding, oil-pressing, surgical dressings, bakery and printing. On blanket-weaving there was a profit of Rs. 4,800 against Rs. 12,819 in 1909, due to smaller requirements in all jails owing to the general decrease in population and the larger supplies indented for during the two previous crowded years. There was also a falling off in the demand from the public. The profit on "cloth-weaving" was Rs. 6,212. The profit on "aloo-pounding" decreased from Rs. 2,770 to Rs. 1,413 owing to the market rate for this fibre having fallen from Rs. 12 to Rs. 6 per maund. Mustard oil yielded a profit of Rs. 1,339. The manufacture of surgical dressings, guaze and wool is one of the principal minor industries of the jail, prisoners in the convalescent and special gangs being employed on this light form of labour. It is proposed to discontinue the manufacture of bandage cloth at Buxar and to transfer the work to this jail as a part of this industry. The bakery showed a net profit of Rs. 1,897 against Rs. 2,102 in the previous year. The decrease of Rs. 205 is due to a slight decrease in the demands from the Reformatory School. The profit on printing was nominal and it has been decided to transfer this industry to the Juvenile Jail, and arrangements will be made for the work to be occasionally inspected by the Press and Forms Manager of the Presidency Jail Press.

40. *Midnapore Central Jail.*—With a daily average population of 832 convicts sentenced to labour the jail employed 396 or 47 per cent. on manufactures, as compared with 384 or 42 per cent. in the previous year. The excess of credits over debits amounted to Rs. 44,217 against Rs. 38,468 in 1909. The net cash earnings, i.e., the difference between the actual amount drawn from and paid into the Treasury, amounted to over Rs. 21,000, whereas there was a deficit of Rs. 14,000 in the previous year. Only Rs. 76,000 was drawn from the Treasury during the year against Rs. 90,000 in 1909, and the value of raw materials and manufactured articles in hand remained practically the same as at the commencement of the year. The value of chowkidari and dafadari uniforms supplied to different districts in Bengal amounted to Rs. 26,000 against Rs. 36,000, and the actual cost of articles supplied to other jails was Rs. 35,000 against Rs. 37,000 in 1909. The chief industries carried on in this jail are cloth and durrie

weaving, cane furniture work and the manufacture of coir mats and matting. The profit on cloth and durrie weaving amounted to Rs. 32,700 as compared with Rs. 31,500 and Rs. 18,000 in 1909 and 1908, respectively. The increase in profit is mainly due to an increased demand from the public for Midnapore Jail goods and the result is very satisfactory, considering that there has been a considerable increase in the prices paid for the raw material (cotton yarn). The profit on cane work fell from Rs. 1,620 in 1909 to Rs. 1,278 in 1910, and the profit on the coir mat and matting industry rose from Rs. 1,890 to Rs. 2,173. A man from the Serampore Weaving School was appointed to fill the post of factory overseer sanctioned by Government during the year.

41. *Buzar Central Jail.*—With a daily average population of 963 prisoners sentenced to labour, this jail employed 533 or 55 per cent. on manufactures against 748 or 58 per cent. in the previous year. The excess of credits over debits amounts to Rs. 60,902 against Rs. 71,475 in 1909. Unfortunately a large proportion of this amount represents an accumulation in stock of raw materials, a large portion of which was received from England on the previous year's indent, and the actual cash profits of the jail for the year amount to Rs. 7,747 only against Rs. 27,475 in 1909. This result is almost entirely attributable to the dearth of orders from Government consuming departments. This jail is specially equipped with appliances for the manufacture of tents, but during the year under report not a single order has been received from the Ordnance Department on whom we are obliged to rely for a large proportion of our orders to keep the tent shop fully employed. This matter has been brought to the notice of Government, and it has been proposed that jails equipped with appliances suitable for the manufacture of standardized articles regularly required by Government consuming departments should state their maximum outturn of the various standardized articles required by these departments and that the departments should recognise that the specific quantity, if required, must be taken from the jail and that only any further supplies beyond the capacity of the jail may be purchased from private firms. This procedure would put a stop to the present undesirable system under which jails are compelled to tender against private firms when taking orders. I need hardly point out that jails have a limited supply of labour and can therefore undertake to manufacture only a small portion of the total requirements of consuming departments. Owing to the dearth of orders the jail has not been working at full pressure, 12 looms in the weaving shop and six machines in the tailoring shop having stood idle throughout the year. The jail has also suffered financially by the rise in the price of its chief raw material, viz., cotton yarn. The average price for yarn rose from As. 7-10 per lb. in 1909 to As. 8-10 in 1910, and there has been a further rise to As. 9-11 per lb. at the time this report is being written. One of the difficulties that this department has to contend with is the fact that although there may be a substantial rise in the price of the raw materials, the Government consuming departments will not as a rule accept a proportionate increase in the rates charged for the manufactured articles, there being a general impression that jail manufactured goods must be considerably cheaper than goods obtained from other sources, though this ignores the fact that prices are fixed in accordance with rules laid down by the Government of India.

The chief manufactures of the jail are tailoring, weaving and tent-making. The profits under these industries were Rs. 39,000, Rs. 8,400 and Rs. 12,500, respectively, against Rs. 46,100, Rs. 6,000 and Rs. 19,200 in 1909. Six hundred and thirty-nine tents were supplied during the year, chiefly to civil departments, against 580 and 672 in 1909 and 1908, respectively. The one department of Government that has consistently helped to support this jail is the Police Department, the orders from which increased from Rs. 37,648 in 1909 to Rs. 50,413 during the year.

42. *Bhagalpur Central Jail.*—With a daily average population of 1,342 convicts this jail employed 614 or 45 per cent. on manufactures, compared with 784 or 43 per cent. in the previous year. The excess of credits over debits amounted to Rs. 53,758 against Rs. 60,223 in 1909. The net cash earnings, i.e., the differences between the actual amount drawn from and paid into

Treasury, decreased from Rs. 79,667 in 1909 to Rs. 19,474. This heavy decrease is entirely due to the dearth of orders from Government consuming departments, the jail not having received the contracts for the supply of blankets to the Ordnance Department and blanket cloth to the Army Clothing Department, although supplies had been regularly made to these departments for some years past and the rates quoted were the same as in former years. The value of the supply of woollen articles to other jails amounted to Rs. 1,05,709 against Rs. 1,56,940 in 1909. The reduction is partly due to the decrease in the population of all jails and partly to the fact that other Provinces, formerly supplied by this jail with blankets for jail use, are now manufacturing their own. The actual cost and market-value of goods supplied to jails in other Provinces was Rs. 40,147 and Rs. 52,149, respectively, and as these goods are supplied at cost price, this department had to forego a profit of Rs. 12,000 by these transactions. The quantity of yarn supplied by the jail during the year was 1,439 maunds against 1,421 maunds in 1909, and the greater part of this material was supplied to jails in other Provinces at cost price. The earnings of the factory were Rs. 41,400 against Rs. 44,100 in the previous year. In both years the results were far from satisfactory owing to the fact that the factory was not able to work at full pressure for want of orders from Government consuming departments. In the Tailoring Department the earnings amounted to Rs. 8,600 against Rs. 10,700 in 1909, the reduction being due to the general decrease in the population of the jails. The bakery was carried on throughout the year and showed a profit of Rs. 213.

43. *District Jails*.—The earnings of district jails amounted to Rs. 1,00,641 against Rs. 1,06,506 in 1909. The jails showing good results are—Darjeeling Rs. 16,102, Juvenile Jail Rs. 8,681, Jessore Rs. 6,523, Hooghly Rs. 6,141, Berhampore Rs. 5,741, Muzaffarpur Rs. 4,368, Arrah Rs. 3,974, Gaya Rs. 3,969, Furi Rs. 3,878, Cuttack Rs. 3,661, Burdwan Rs. 3,614, Bankura Rs. 3,190, Bankipore Rs. 3,181, Purnea Rs. 3,173, Monghyr Rs. 3,062.

44. *Jail Depot*.—Goods to the value of Rs. 66,982 were disposed of during the year against Rs. 64,745 in 1909. Of this Rs. 41,524 was remitted into the Treasury as sale proceeds of manufactured articles supplied to the public, and the balance, Rs. 25,458, represents the value of goods supplied to consuming departments of Government for which countersigned bills were received. The principal departments of Government supplied during the year were Supply and Transport (Rs. 13,801), Marine Department (Rs. 5,308), Presidency Post office (Rs. 1,543), and the Telegraph Department (Rs. 2,876). There was a slight decrease in the value of supplies to Government departments, due to these departments demanding lower rates owing to restricted expenditure. A somewhat smaller quantity of mustard oil was sent to Port Blair by the Supply and Transport Department during the year, but arrangements are being made to obtain a larger order this year. On the other hand, there has been an appreciable increase in supplies to the public, chiefly due to a demand for mustard oil at higher rates during the first half of the year. The expenditure of the depot was Rs. 5,842 against Rs. 5,988 in 1909. Major John Mulvany, I.M.S., was on special duty at the Jail Depot from the 1st to 10th March 1910, and a scheme for the reorganization of the depot is, at present, before Government. It is proposed to place the management of the depot on more business like lines with a view to keeping in touch with the requirements of Government consuming departments. It is also proposed to utilize the services of the Depot Manager to occasionally verify stocks of raw materials and manufactured articles in central jails.

45. *Miscellaneous*.—During the year the Bankipore Jail was awarded two prizes, viz., for Durrees and for vegetables at the local Industrial Exhibition held at that station. At the Ranchi Industrial Exhibition the Ranchi Jail was awarded the 1st prize, for *Papita* (fruit) and 2nd prize, for bulls. At the Sambalpur Industrial Exhibition prizes were awarded to the local Jail for industrial and for agricultural exhibits. At the Jessore Exhibition the Jessore Jail received two 1st class certificates, one for Durrees and one for cattle and two cash prizes for vegetables and cattle respectively.

46. *Accommodation*.—Statement A furnishes the accommodation available on the 31st December 1910 in the jails and subsidiary jails in Bengal. Excluding hospitals and observation cells, the central and district jails have

accommodation for 15,526 male and 781 female convicts; 1,927 male and 94 female undertrials, and 161 male civil prisoners." Excluding the sick, the average population was convicts, 12,841.56 males and 333.09 females; undertrials, 1,510.49 males and 63.01 females; civil, 33.74 males and 0.13 females. On reference to columns 3 and 4 of Statement XIV it will be seen that there was overcrowding on the daily average strength of convicts in the jails at Howrah, Presidency (Native), Jessore, Khulna, Monghyr, Purnea, Balasore, Puri, Angul, Sambalpur, Purulia and Chaibassa. Accommodation in the undertrial wards was exceeded in the jails at Burdwan, Suri, Midnapore, Hooghly, Presidency (Native), Khulna, Barasat, Balasore, Sambalpur and Purulia.

47. *Diet of prisoners.*—The scales of diet issued to several classes of prisoners and the temporary changes made in them during the year under orders of medical officers are furnished in statement VIII. Certain minor alterations in the diet of native prisoners were sanctioned by Government in the revised edition of the Jail Code and brought into force from the 1st January 1910.

The whole question of jail dietary is now under consideration of Government. Under orders of the Sanitary Commissioner with the Government of India, Major D. McCay, I.M.S., the Professor of Physiology in the Medical College, Calcutta, carried out a valuable and elaborate series of tests and experiments on jail dietaries with the object of finding a combination of food-stuff suitable to Indian prisoners which would be most easily absorbed and assimilated and lead to the least waste, and I have separately addressed Government on the subject. On the whole, it was found that a diet very closely resembling what is known as the Bihar scale diet in jails gave the best results, and recommendations to improve the other diet scales on these lines have been submitted to Government.

48. *Gratuities to Sub-Assistant Surgeons.*—Rupees four thousand and six hundred have been awarded to sub-assistant surgeons attached to jails for good work done during the year.

Government has already sanctioned an increase with effect from 1st April 1911 in the total sum placed at my disposal for this purpose, which will permit me to give increased rewards to all deserving medical subordinates, and this concession has been gratefully received by this very hard-working body of men, to whose efforts the continued high state of health in the jail is largely due.

49. *Statement No. XIV shows the sickness and mortality amongst prisoners of all classes during the year.*—The daily average strength for the year was 14,802.61, the number admitted to hospital 13,340 and the daily average number of sick 520.59 against 17,108.20, 15,927 and 661.04, respectively, in 1909. The total number of deaths during the year was 276 against 420 in the previous year.

50. *Sickness and mortality (all classes of prisoners).*—The following table gives the average number of prisoners, the ratio per mille of admissions to hospital, the daily average number of sick, and the number of deaths amongst all classes during the last four years:—

| YEAR. | Daily average number of prisoners of all classes. | ADMISSIONS INTO HOSPITAL. | | DAILY AVERAGE NUMBER OF SICK OF ALL CLASSES. | | DEATHS FROM ALL CAUSES OF ALL CLASSES OF PRISONERS. | |
|-------|---|---------------------------|------------------|--|------------------|---|------------------|
| | | Number of admissions. | Ratio per mille. | Daily average sick. | Ratio per mille. | Total number of deaths. | Ratio per mille. |
| 1906 | 15,774 | 16,042 | 1,016.9 | 576.44 | 36.5 | 374 | 23.7 |
| 1907 | 15,275 | 14,468 | 936.8 | 528.80 | 34.2 | 268 | 17.5 |
| 1908 | 16,739 | 15,529 | 921.4 | 615.36 | 36.5 | 522 | 31.1 |
| 1909 | 17,108 | 15,927 | 930.8 | 661.04 | 38.6 | 420 | 24.5 |
| 1910 | 14,803 | 13,340 | 901.1 | 520.59 | 35.1 | 276 | 18.6 |

51. *Statement No. XV shows the admissions and deaths from the chief diseases among convicts in 1909-1910:—*

| | 1909. | | 1910. | |
|--|-------------|---------|-------------|---------|
| | Admissions. | Deaths. | Admissions. | Deaths. |
| (1) Cholera ... | 4 | 4 | 13 | 5 |
| (2) Dysentery ... | 2,452 | 97 | 1,367 | 53 |
| (3) Malarial fevers ... | 4,370 | 29 | 3,878 | 17 |
| (4) Tubercle of the lungs, etc. | 224 | 53 | 150 | 45 |
| (5) Anæmia and debility ... | 182 | 10 | 166 | 8 |
| (6) Pneumonia ... | 161 | 41 | 115 | 28 |
| (7) Other infective diseases ... | 1,655 | 40 | 916 | 34 |
| (8) Other respiratory diseases, except pneumonia ... | 586 | 14 | 434 | 7 |
| (9) Diarrhoea ... | 1,396 | 13 | 1,001 | 8 |
| (10) Abscesses, boils and ulcers of all kinds ... | 1,033 | 2 | 883 | 2 |
| (11) All other diseases ... | 2,444 | 58 | 2,562 | 40 |
| (12) Out of hospital ... | ... | 8 | ... | 4 |
| Total ... | 14,427 | 374 | 12,010 | 251 |

The great feature in the above figures is the fall in the total mortality the death-rate per mille for all classes of prisoners being only 18·6, a low figure which has only been once surpassed in the history of this department, viz., in 1907 when the death-rate was only 17·5.

The following table will show how the health of the prisoners in Bengal has improved in recent years:—

| Death-rate per mille. | | | Death-rate per mille. | | |
|-----------------------|----|----------|-----------------------|--|--|
| 1875-79 ... | 65 | 1905 ... | 24 | | |
| 1880-84 ... | 61 | 1906 ... | 23 | | |
| 1885-89 ... | 44 | 1907 ... | 17·5 | | |
| 1890-94 ... | 36 | 1908 ... | 31·1 | | |
| 1895-99 ... | 26 | 1909 ... | 24·5 | | |
| 1900-04 ... | 26 | 1910 ... | 18·6 | | |

Our jails have now reached a high standard of sanitation, and as long as they are well managed and strictly controlled the death-rate should remain low, but this good state of health depends on many factors, and those which are not in our power to control are famine or scarcity leading to overcrowding and to the admission of many prisoners in enfeebled health. This absence of overcrowding is the main factor in the good results of the year under report. The cause of this was the occurrence of good crops and a prosperous year. We cannot expect such good results in years of scarcity. Our jails when full up to the limits of their registered accommodation, give but a bare minimum standard floor and air space, the wards cannot be further filled up without bad results, and in time of overcrowding ill effects are only partially avoided by utilising workshops and even verandahs to accommodate the surplus.

52. *Chief diseases.*—Cholera, only thirteen cases in several jails: all sporadic cases, five of which were fatal.

53. *Dysentery.*—A marked feature of the year is the falling off in the number of cases of this the most troublesome of all jail diseases. This is characteristic of a healthy year. In years of scarcity very many prisoners come to jail suffering from or only partially recovering from bowel complaints, and among such, with every care and attention, a high death-rate must be expected. It is a remarkable fact that in no less than 20 out of 38 jails there was no death from dysentery. Still more remarkable are the few cases coming from the large jails, e.g., Alipore 40 cases, no death; Midnapore for many years a hotbed and focus of dysentery 71 cases and only 1 death; Buxar 42 cases and no death; the New Central Jail 12 cases and no death (a good beginning for this new jail); the old Presidency Jail 67 cases and no death. In all

these jails dysentery is very carefully looked after and controlled. In Hazaribagh, where for three years past there has been a persistent epidemic of dysentery, the disease appears at last to have been conquered, and the number of cases within the last half of the year has shown a great falling off. Captain Wells, I.M.S., who has been deputed from the Central Research Institute to study dysentery, has worked in this jail during the year but his report has not yet been published. The decline is due to the great attention paid to the subject by Major A. F. Stevens, assisted by Captain Wells and by the medical staff.

54. *Malarial fever*.—There was a less marked falling off in the number of cases of malarial fever admitted, but this can never be largely influenced by any efforts of the Jail Department as there is a constant stream of infected prisoners from the courts throughout the year. All newcomers are put under quinine treatment and the prophylactic issue of quinine is enforced in all jails, and all the medical officers report favourably on its use. The tablets of quinine which can now be made by the million in the Juvenile Jail have been largely used and are generally appreciated and especially by the warder staff of the jails.

55. *Tuberculosis*.—This, next to dysentery, is the most important jail disease, a vast majority of cases come to jail already infected and are soon recognised. The following figures show the incidence of tuberculosis in the jails for past five years :—

| | | | Cases. | | Deaths. |
|------|-----|-----|--------|-----|---------|
| 1906 | ... | ... | 271 | ... | 64 |
| 1907 | ... | ... | 218 | ... | 45 |
| 1908 | ... | ... | 233 | ... | 78 |
| 1909 | ... | ... | 224 | ... | 63 |
| 1910 | ... | ... | 150 | ... | 45 |

This is a disease fostered and spread by overcrowding, and in the two crowded years (1908 and 1909), there were very many cases, and in the year of less crowding (1910) the number fell off, while but few cases can be traced to origin in jail. It is undoubted that crowded barracks and workshops bring the disease to light. It is an eminently communicable disease, and I regret to record that the chance we once had of getting the jail at Berhampore for use as a special tuberculosis jail has disappeared, and we cannot properly control of this disease till we get a separate jail for these infective cases.

The following table shows the large share taken by this single fell disease in the mortality of prisoners :—

| | | Deaths from tubercle. | Total deaths all classes. | | |
|------|-----|-----------------------------|---------------------------------|------|--------|
| 1905 | ... | 59 | 379 | } or | 1 in 6 |
| 1906 | ... | 64 | 374 | | 1 " 6 |
| 1907 | .. | 45 | 268 | | 1 " 6 |
| 1908 | ... | 78 | 522 | | 1 " 7 |
| 1909 | ... | 63 | 400 | | 1 " 7 |
| 1910 | ... | 45 | 276 | | 1 " 6 |

While the total death-rate from the province in 1910 is only 18.6 per mille of average strength, 14 jails were below this figure and only 18 above it.

The following jails had no deaths during the year :—Howrah, Juvenile, Presidency (European), Dumka, Puri, Ranchi and Daltonganj. Even more remarkable are the low death-rates in jails in such districts as Hooghly (8.6), Burdwan (10.4), Bankura 5.5, Berhampore 8.3, Monghyr 7.4, Purnia 7.4, the old Presidency Jail 6.8 (a record for a big central jail). It is also remarkable that as a rule the Bihar jails show a higher sick and death rate than those in Lower Bengal. The only jails with high death rates which need explanation are Darjeeling and Hazaribagh. The persistent epidemic dysentery in Hazaribagh has been mentioned, and if this disease is excluded the general health was good. As for Darjeeling it is a small jail and several deaths occurred among prisoners sent there from the low malarial tracts of Siliguri, etc., at the foot of the hills. Arrangements have since been made to send such malaria-stricken prisoners to Purnea District Jail, instead of to the hills.

56. *Statement B.—Prisoners' weighments.*—Of the 33,102 convicts who were discharged during the year 55·09 per cent. gained weight, 16·30 per cent. lost weight and 28·61 neither gained nor lost; against 56·1, 14·5 and 29·4, respectively, in 1909. The jails showing the highest percentages of loss were Alipore, Buxar and Bhagalpur.

57. *Inspection.*—All the central and district jails and several subsidiary jails were inspected by me during the year. The Buxar and Bhagalpur Central Jails and Berhampore, Jessore, Khulna, Bankipore, Gaya, Muzaffarpur and Puri District Jails were inspected twice, the New Central Jail at Kalighat, the Presidency Jail, the Juvenile and Darjeeling Jails thrice and the Alipore Central Jail several times. The number of visits paid by Commissioners of Divisions was 81, by Judicial officers 33, by Magistrates 1,572 and by non-official visitors 323 against 67, 25, 1,404 and 380 respectively in 1909. The Inspector-General of Civil Hospitals, Bengal, visited three and the Sanitary Commissioner two jails.

His Honour the Lieutenant Governor visited three jails and his Chief Secretary visited one jail (Krishnagar).

58. *Officers of the Department.*—Major J. Mulvany, I.M.S., who had acted as Inspector-General of Prisons during my absence on furlough, went on long leave in March 1910 and has been permitted to spend a portion of that leave in examining into the English prison systems and methods.

Mr. M. S. Emerson, the able and experienced Superintendent of the Alipore Jail, has applied for leave pending retirement from the service, and in him we shall lose the last of the old school of Superintendents who have done so much good work in this department. Major G. Y. C. Hunter has been in charge of the Presidency Jail during most of the year and has ably and wisely managed this difficult jail. Captain W. G. Hamilton has been a distinct success as Superintendent of Bhagalpur and Midnapore Jails. Captain W. Gillitt has established order and discipline, as well as good health, in the Buxar Jail and has had an up-hill fight to get the better of large gangs of determined and obstinate prisoners. These gangs have been broken up and scattered. Major F. S. C. Thompson in charge of the new Central Jail, destined soon to replace the old Presidency Jail on the Maidan, has proved himself an able and reliable Jail Superintendent. Captain Salisbury has done good work while in charge of the Midnapore Central Jail and is likely to be an efficient officer. In the second class Central Jail at Hazaribagh Major A. F. Stevens has worked keenly and energetically to stamp out the persistent epidemic of dysentery in that jail and has also effected many improvements there.

Among the Superintendents of District Jails which deserve special mention I may name Lieutenant-Colonel D. G. Crawford at Hooghly, Lieutenant-Colonel Sunder at Bankipore, Major Urwin at Motihari, Major A. Gwyther at Chapra, Major Delany at Arrah, Major Wilson at Cuttack, Dr. Brachio at Suri, Rai Dr. Gupta Bahadur at Khulna, Major Lindsey at Ranchi and Dr. Galvin at the Juvenile Jail.

The Deputy Superintendents of the Central Jails all did good work, especially Mr. T. Stewart of Alipore whose good work has been recognised and rewarded by Government by the bestowal of the Kaiser-i-Hind medal. Mr. W. H. Evans as usual did good work at Bhagalpur and was well assisted by Mr. B. Gaunt and Mr. Leech. Mr. Grosser has continued to do good work at Alipore and Mr. Orrah as well as Mr. Hyland has done good work at Buxar. The good work of the accountant Babu Nani Lal Mukherji at Alipore in working off large arrears is worthy of mention.

59. *Jailers and Assistant Jailers.*—We are at present fortunate in having two energetic and reliable European Jailers in Mr. Atkinson at the Presidency and Mr. Hill at the Alipore Jail. The introduction of Mr. Hill and his European staff of warders has greatly improved discipline at Alipore during a very trying period. Among the Indian Jailers I must mention Jailer M. Mahomed Khan, specially selected for the charge of the new Central Jail near Alipore; Babu Loknath Tewari who is doing good and faithful work at Hazaribagh; Babu Gura Charan Dutt, the Jailer of Buxar who is an able man, as is also Babu Chakan Lal Bhattacharji at Cuttack. Babu Dakina Dyal Bose at Midnapore has maintained his good reputation as has Babu Ram Tarak Sen of Bhagalpur,

Babu S. C. Sen of Muzaffarpur, and Babu Bipin Behari Sii at Berhampore. Among the younger men the best work has been done by Babu C. K. Mitra at Monghyr, Babu Kalipada Singh in charge of the Juvenile Jail, A. K. Chowdhry at Arrah and Khulna, U. N. Mukerjee at Bardwan, Raghunandan Singh (I) at Purulia and G. N. Sahai at Krishnagar.

60. *Head office staff.*—Mr. R. P. Adams, the newly appointed Superintendent of Jail Manufactures, joined early in the year and has taken up keenly the question of standardisation of jail articles of manufacture and the reform of the working of the Jail Depôt. Mr. W. A. Bonnaud has continued to prove himself an able and reliable Personal Assistant and the office would fare badly if it was not at the head of the clerical staff Babu Gopal Chandra Mukerjee and Babu Khe.tra Nath Mitra. The recent improvement in the rate of pay of the office staff and of the manufacturing staff in our jails has given great satisfaction and was much needed. The medical branch of the Jail Department is also indebted to Government for an improvement in the conditions governing the grant of annual rewards for good work done in the prevention of disease and in the treatment of the sick in jails.

61. In considering the conduct of the jail staff, the peculiar and trying circumstances of the political situation of the past few years should be taken into consideration. The effects of the unrest in Bengal are not unknown inside the jails and all experienced officers are well aware of a change for the worse in the disposition of the prisoners. They are certainly not so mild and submissive as they were even in recent years, and this change of demeanour has undoubtedly made work in our jails more harassing, troublesome and certainly more difficult. Our jail officers have behaved loyally and well in spite of well understood temptations. The jail officer (perhaps fortunately) comes less in touch with the outside world of the public and the press, and his work is neither as well known, criticised or praised as is that of the sister department of the Police, but the same difficulties exist for both departments and they have been met and surmounted by the Jail Department as ably as the Police Department has met theirs, but I cannot refrain from pointing to the well deserved shower of titles and medals which have fallen to the Police Department, while the Jail Department has been left in the cold shade of non-recognition. I beg to press the claims of this department for recognition, which will show the public that the Jail Department has deserved well of the Government.

I have the honour to be,

SIR,

Your most obedient servant,

W. J. BUCHANAN, Lt.-Col., I.M.S.,

Inspector-General of Prisons, Bengal.

APPENDIX

STATISTICS

OF THE

JAILS AND SUBSIDIARY JAILS OF BENGAL

FOR

THE YEAR 1910.

MEAT—Beef or mutton to be weighed in the raw state. Beef to be issued free from bone. Mutton to be issued with bone, for which an allowance of 25 per cent. shall be made. Meat loss from 20 to 30 per cent. of its weight by boiling, and from 30 to 35 per cent. by roasting. The issue of lungs, liver and entrails is prohibited.

FISH—An equal quantity of fish may be issued in lieu of meat not oftener than once a week at the discretion of the Superintendent.

AN allowance of 75 per cent. shall be made for fish, onions, heads, etc.

SOUP STEW—To make one pint—10 oz. meat, 5 oz. vegetables, 1 oz. potatoes, 1 oz. onions, 5 oz. dal meal, milk, pepper and herbs.

POTATO BHATA—Four oz. potatoes, 1 oz. onions, ½ oz. mustard oil.

SALT PUDDING—Five oz. flour, 1½ oz. meat and milk.

TEA—To make one pint—½ oz. tea, ¼ oz. sugar and 1 oz. milk.

GRUEL—To make 1 pint—5 oz. oat, ½ oz. milk.

GRUEL CRISP—shall be prepared according to the following recipe—

Chillies ... 8 parts.
Turmeric ... 1 part.
Coriander ... 8 parts.
Garlic ... 6 "

RICE—One ounce of uncooked rice is approximately equivalent to three ounces of cooked rice.

VIII—(JUDICIAL).

and Subsidiary Jails of Bengal during the year 1910.

NOTE ON ANY CHANGES EFFECTED IN THE DIET SCALES DURING THE YEAR 1910.

The following minor changes were made temporarily for the reasons stated:—

BENGAL.

Burdwan Nil.

Suri Nil.

Bankura Nil.

Midnapore Central No change in Hospital diet.

- (1) Since January 1910, diet has been given in accordance with Inspector-General of Prisons Circular No. 2317, dated 4th November 1909.
- (2) Fish relish was given to all labouring prisoners throughout the year.
- (3) Dahi was given occasionally in lieu of dal, when there was an excess of milk, after meeting the demands for Hospital patients and gangs.

Hoochly Nil.

Howrah Nil.

Alipore Central ... New scale of diet was given to the prisoners from 1st January 1910 as mentioned below. The prisoners were divided into three classes: 1st class prisoners consisted of labouring prisoners, 2nd class prisoners consisted of undertrial prisoners above one month in jail, 3rd class prisoners consisted of "female prisoners," "undertrial prisoners below one month in jail," "simple imprisonment prisoners," and "juvenile prisoners under 18 years of age." 1½ chittaks of rice was given to the 1st class prisoners, 3 chittaks to the 2nd class prisoners and 7½ chittaks to the 3rd class prisoners; 3 chittaks of dal was given to the 1st and 2nd class prisoners and 3 chittaks to the 3rd class prisoners. In the early morning meal 3 chittaks of rice was given to the 1st and 2nd class prisoners and 1½ chittak to the 3rd class prisoners. Mustard oil was given at the rate of 4 chittaks to the 1st and 2nd class prisoners and 2 chittaks to the 3rd class prisoners. Salt was given at the rate of 1 to the 1st class, ½ to the 2nd class and ¼ to the 3rd class prisoners. There were also changes in the diet scale of Bihar prisoners, in the 2nd and 3rd class prisoners, viz., rice 3 chittaks and dal 2½ chittaks to the 2nd class prisoners and rice 3 chittaks and wheat dal 3 chittaks to the 3rd class prisoners. Condiments, etc., were as in previous years. Ghee was issued with early morning meal at 1 chittak per prisoner twice a week throughout the year. Rice with salt in the early morning meal was also issued twice a week throughout the year. Khichery consisting of 1 chittak of dal deducted from the daily allowance and rice was issued to the prisoners in the early morning meal twice a week throughout the year. Fish relish at the rate of 1 seer to every 50 prisoners was issued throughout the year in lieu of 1 chittak of dal as contained in Circular No. 63 of 1909. Meat at the rate of 2 chittaks per prisoner was issued twice a week to all prisoners from 1st July 1910 to 15th November 1910 in lieu of 1 chittak of dal. It was recommended by the Medical Officer on account of general loss of weight.

Juvenile Jail, Nil.
Alipore.

New Central Jail, Nil.
Kolkata. Diet was issued to the prisoners in accordance with Circular No. 2317, dated 4th November 1910, from the beginning of the year to the end of it. Khichery consisting of 3 chittaks of rice and 1 chittak of dal was issued in the early morning meal every alternative day throughout the year, the dal being cut from the midday and evening meals. Fish was given as relish all round the year, to all the prisoners on Bengal scale in the evening meal at the rate of 1 seer to 50 prisoners. 1 chittak of dal having been cut per head from evening meal. Meat was issued to all the prisoners from 17th July to 15th August twice a week, and from 24th September to 15th November once a week, on medical grounds, the prophylactic quinine having been given to the prisoners during the time. Potatoes and onions were given as extra in place of meat from the 16th September to the 31st September 1910. Ghee was given in the early morning meal once a week to all the prisoners from the 11th December to the end of the year in lieu of 1½ in early morning meal.

Presidency (Native) Central. The new scale of diet prescribed in prison circular No. 2317, of the 4th November 1909 was introduced since 1st January 1910. Rice-water or murr with extra salt was issued in both meals between 1st July 1910 and 31st October 1910. The ration of fish relish at the fixed rate was issued to prisoners on Bengal diet. Tamarind at an increased rate of 40 p-r cent, and potatoes and onions, 1 chittak of each per man, were issued as shown below as a preventive measure against scurvy:—

| | From | To | Quantity. |
|----------|----------------|-------------------|-----------|
| Tamarind | 24th July 1910 | 31st October 1910 | 15 10 0 |
| Potatoes | 24th " | 31st " | 55 22 15 |
| Onions | 24th " | 31st " | 20 20 0 |

Presidency (European) Central. No changes in ordinary diet scale have been made during the year; the issue of bread instead of rice to two prisoners by order of the Medical Officer except in last year's return has been continued up to the present, in case of one and for the other up to 5th May 1910 when he was transferred from this jail.

STATEMENT VIII—(JUDICIAL)—continued.

Showing the Scales of Diet in force in the Jails and Subsidiary Jails of Bengal during the year 1910.

NOTE OF ANY CHANGES EFFECTED IN THE DIET SCALES DURING THE YEAR 1910.

| | |
|---------------|---|
| Krishnagar | Same as last year. |
| Berhampur | .. Scale of diet issued to all classes of prisoners during the year 1910 as laid down in revised Jail Code, rules 87a and 88a. Fish as a relish was issued to all the prisoners throughout the year at the rate of one seer per every 50 prisoners in lieu of half chittak of <i>dal</i> per head. This fish was supplied from the Jail tank throughout the year with the exception of from the middle of June to the end of October 1910. Fish from Jail tank four chittaks per head was issued to all the prisoners on one occasion during the year for which no deduction of <i>dal</i> was made. Wheat <i>atta</i> made into chapatties was issued daily to 50 prisoners on average in the evening meal during the year. Half wheat <i>atta</i> and half barley <i>atta</i> was issued during the months of January and April and December 1910. |
| Jessore | ... Fish was issued from February to December 1910. Meat was also issued from August to November 1910. <i>Dahi</i> was issued from March to August 1910. <i>Dal</i> deducted as per Jail Code rule on the subject. |
| Khulna | ... Nil |
| Buraset | ... Nil. |
| Hazar Central | ... No change was made in the scale of diet during the year. Barley <i>atta</i> was issued to prisoner from 8th September 1910 to 31st October 1910 instead of <i>makai atta</i> . |
| Bankipore | ... <i>Makai atta</i> issued for the early morning meal— <div style="margin-left: 40px;"> <i>Chittak</i> for Scale No. I. <i>Chittak</i> " " " No. II. <i>Chittak</i> " " " No. III. </div> <p>No other changes.</p> |
| Gaya | .. <i>Makai atta</i> 3 chittaks and wheat <i>atta</i> 3 chittaks to labouring convicts and <i>makai atta</i> 3 chittaks and wheat <i>atta</i> 3 chittaks to non-labouring prisoners were issued for the period commencing from 1st November 1910 to 30th November 1910 for midday meal. Milk from the Jail dairy in excess of that required for hospital consumption was issued to ordinary prisoners throughout the year at the rate of 4 chittaks per prisoner in lieu of 1 chittak <i>dal</i> . |
| Arrah | ... <i>Dahi</i> from Jail dairy when surplus from the hospital use was issued to all prisoners at 4 chittaks each in lieu of one chittak <i>dal</i> during the year. <i>Makai atta</i> at six chittaks each was issued from 1st November 1910. |
| Chupra | .. From January 1910 to April 1910 maize and barley <i>atta</i> were issued in one meal every alternate month except in the month of March 1910, when it was reduced to every alternate day at the rate prescribed in Circular No. 101, dated the 18th December 1909, for maize and wheat <i>atta</i> . From May 1910 to December 1910 maize and barley <i>atta</i> were continued in one meal every alternate day except in the months of September and October 1910 when only barley <i>atta</i> was issued. Four kinds of <i>dal</i> (<i>arhar</i> , <i>gram</i> , <i>masoor</i> and <i>kolai</i>) were issued alternately for the whole year at the rate prescribed in the above circular. As in 1909 the surplus quantity of milk, after meeting the want of Jail hospital, was made into <i>dahi</i> and given to all prisoners in general at the rate of two chittaks per prisoner in lieu of one chittak of <i>dal</i> , consequently 43 maunds 37 seers of <i>dahi</i> was issued during the year 1910 for which 21 maunds 39 seers 8 chittaks of <i>dal</i> was deducted. |
| Motihari | ... Diet was issued to prisoners of all classes according to scale laid down in Jail Code rule Nos. 87a, 87b and 87c. Both <i>makai</i> and wheat <i>atta</i> were issued to the prisoners throughout the year at the rate of half the scale laid down for each. Prisoners of Lower Bengal and those who were old and weak received rice in both meals. Milk and sometimes <i>dahi</i> were issued to ordinary prisoners in lieu of <i>dal</i> after meeting the demands of hospital. <i>Dal</i> was issued in the early morning meal on Sundays throughout the year at the rate of half chittak in lieu of one-sixteenth chittak of salt; <i>khakhery</i> (rice and <i>dal</i>) was given thrice a week during the year. Meat was issued to prisoners in convalescent and losing-weight gangs. |
| Munshampur | All Bengali prisoners and old Bihari prisoners received Bengal scale of diet throughout the year. In the early morning 1½ chittak of <i>makai atta</i> to class I and II and one chittak to class III were issued to prisoners from 1st January to 31st March 1910. From the 31st March to 31st October 1910 two chittaks of rice to class I and II and 1½ chittaks to class III and 1 chittak of salt were issued to prisoners four times a week; two chittaks and 1½ chittak of rice respectively mixed with 1 chittak of <i>dal</i> were issued thrice a week. From November to 31st December 1910, <i>makai</i> 1½ chittak and one chittak and rice two chittaks and 1½ chittaks respectively were issued on alternate days in the early morning meal. Barley was also issued to prisoners on alternate dates from July to October 1910, as an experimental measure, and has been found successful. Prisoners in the special and convalescent gangs were supplied with milk and <i>dahi</i> throughout the year. |
| Dachbanga | .. According to the Inspector-General of Prisons' Circular No. 23D., dated the 4th November 1909, the new diet scale as sanctioned by Government was introduced from the 1st January 1910. This scale with the modification of issuing rice to the prisoners on Bihar diet in the early morning meal as sanctioned in Inspector-General of Prisons' Circular No. 4, dated the 14th January 1910, was in force throughout the year without any change, except that rice with salt and <i>khakhery</i> were alternately issued to the prisoners in the early morning meal. |

POLITICAL DEPARTMENT.

JAILS.

DARJEELING, THE 20TH JUNE 1911.

RESOLUTION NO. 1459 P.—D.

READ—

The Report on the administration of the Jail Department for the year 1910.

Read also—

The Reports for the years 1908 and 1909 and the Resolutions of Government recorded thereon.

Major J. Mulvany, I.M.S., officiated as Inspector-General from the 1st January until the 28th February, and Lieutenant-Colonel W. J. Buchanan, I.M.S., resumed charge for the rest of the year. The administrative control of the department was transferred on the 8th August from the Judicial Secretary to the Chief Secretary in the Political Department in consequence of the Legal Remembrancer being appointed Secretary to Government in the Judicial Department. The new Jail Code was completed during the year, and was published on 5th October 1910.

2. The outstanding feature of the year from the administrative point of view was the reduction in the jail population, due to the good harvest of 1909-1910, the average daily number of prisoners being 13,163 as against 15,065 in 1909. At the same time the available accommodation was increased by the opening of the new Central Jail at Kalighat on 1st January 1910; accommodation was thus obtained during the year for 18,460 prisoners as against 16,755 in 1909. It is to be remembered, however, that the decline of the jail population must be regarded as temporary, and the present satisfactory proportion of accommodation to population is only maintained by the retention of the old Presidency Jail on the Calcutta Maidan, and the retention of that jail is absolutely necessary until the erection of a new Central Jail at Monghyr is completed. The latter project, though unfortunately delayed by financial difficulties, has been definitely commenced. On 16th December 1910 the Secretary of State gave provisional sanction to the scheme; detailed plans and estimates were prepared and are now under consideration; and with the sanction of the Secretary of State a start has now been made with the acquisition of the land required and other preliminary arrangements. The construction of buildings will be carried out as rapidly as possible; the new jail will provide accommodation for 2,000 prisoners as against 1,235 in the old Presidency Jail, and will furnish a solution, at any rate for a considerable period, of the problem of overcrowding which has been the chief blot on the administration of the jails of Bengal for the past 10 years.

3. With the decline in overcrowding during the year the health of the jails has shown a marked improvement, and the Lieutenant-Governor in Council has to congratulate the Inspector-General on a death-rate of no more than 18·6 per mille,—a figure which has been surpassed only once in the history of the department, viz., in 1907, when the rate fell so low as 17·5. Colonel Buchanan is doubtless right in attributing this improvement primarily to the absence of overcrowding; although the prosperity of the year is also an important factor, since the prisoners admitted are generally in better health than in a poor year. At the same time it would not be fair to deny to the officers of the department their share of credit for the improvement. Their successful treatment of dysentery is a case in point. This disease has been the scourge of the Hazari-bagh Jail for several years past; but in the year under report the number of

deaths fell from 97 to 53, of which only 19 occurred in the second half of the year. The epidemic received the special attention of Government during the year; and Captain Wells, I.M.S., of the Central Research Institute, was engaged on special duty inquiring into the matter. His report has not yet been published, but the prevalence of the disease is believed to have been connected with the deficiency of the water-supply. The scheme for an improved supply of water has now been worked out, and it is trusted that the disease will yield to this treatment and to the general care and attention of the medical staff.

4. The Inspector-General urges the following proposals for the improvement of the warder service, which though not new are of some importance:—

- (1) That the warder service should be made pensionable,—a reform which the Inspector-General anticipates, no doubt rightly, would result in an improvement of the standard of recruits.
- (2) That enlisted men should be substituted as far as possible for convict warders, many of whom, under the present system, are not qualified under the rules for the responsible duties which they perform.
- (3) That the system of maintaining at Central Jails a certain reserve of warders should be extended, thus obviating the necessity of employing absolutely untrained men in temporary vacancies.

The first suggestion the Lieutenant-Governor in Council regards for the present as impracticable. The warder service of Bengal cannot be taken alone; it belongs to the class of services which under general account rules are ineligible for pensions, and to extend the concession to the Bengal warder service as a whole would result in claims which it would be difficult to resist from many other services similarly situated. Apart from financial considerations, the present is not a suitable time to press for further ameliorations in the terms of the warder service, seeing that as recently as 1908 it was reorganized and its conditions considerably improved at an additional cost of Rs. 26,118-4 per annum. As regards the second proposal, it is clear from the figures given in the Inspector-General's report that the convict system, apart from any intrinsic disadvantages which may inhere in it, has been abused, and that necessary additions to the paid warder service have been avoided by appointing, as convict officers, prisoners not entitled under the rules to such a concession. The Lieutenant-Governor in Council fully agrees with the Inspector-General that the time has come when the system should at least be restricted rigidly within the limits imposed by the rules. As a preliminary measure, the Inspector-General is accordingly requested to submit proposals for increasing the estimates of the Central Jails to such an extent as may be necessary to avoid the employment as convict officers of ineligible prisoners. The system of a circle reserve of warders, to which reference is made in the third proposal, is undoubtedly a sound one, but it has so far been introduced only tentatively in two circles. A general scheme based on recognized principles should now be prepared, and instructions have been issued to the Inspector-General of Prisons accordingly.

5. It had been recognized for some time that the jail industries of the Province on their commercial side were not in a satisfactory condition. Accordingly the whole question of jail industries was considered by a Committee consisting of the Hon'ble Member in charge of the Jails Department, the Chief Secretary to Government, the Inspector-General, and the Superintendent of Jail Manufactures. The Committee arrived at the conclusion that the falling off in the profits of manufactures was primarily due to the neglect of Government departments to observe the standing orders of the Government of India, which prescribe the utilization for Government purposes, where possible, of jail products. The measures which have been taken will, it is hoped, have the effect of ensuring a more regular disposal of the produce of jail manufactures to the spending departments of Government. Steps also are being taken to place the Jail Depot in Calcutta on a better commercial basis.

6. *Discharged Prisoners' Aid Society.*—The Society employed 39 prisoners at its book-binding shop as against 29 during 1909, and in addition gave assistance to 52 discharged prisoners. The Inspector-General reports that the

"success of the Society largely depends on the personal interest taken in it by the Hon'ble Mr. Justice Stephen and the Hon'ble Mr. Justice Holmwood." The Lieutenant-Governor in Council desires to place on record his thanks to these gentlemen and to those associated with them in this admirable work. He would gladly see the scope of the Society's activities extended, and desires to commend it to the notice of the charitable.

7. Colonel Buchanan notes that the jail officer comes less into touch with the outside world of the public and the press, and his work is neither as well known, criticised or praised as is that of the sister department of the Police. As a general statement this is no doubt correct; but during the year under review the Jail Department met with an unusual share of attention in connection with the methods of dealing with undertrial prisoners in political cases; and as these criticisms derive their force solely from ignorance or misrepresentation of the facts, the Lieutenant-Governor in Council thinks it desirable to take this opportunity of referring to them. It was freely alleged that undertrial prisoners of this class were subjected to unfair and irregular differential treatment. These allegations were the subject of most careful inquiry, and (without reference to cases *sub judice*) the Lieutenant-Governor in Council desires to place it on record that the suggestion that the law or the rules of the department were in any case perverted to the harassment of political prisoners is entirely unfounded. The most weighty and the most frequently repeated denunciation was that these prisoners or some of them were subjected to "solitary confinement of a penal type." This criticism rests on ignorance of the law and rules regulating the incarceration of undertrial prisoners, and particularly of the nature of solitary confinement. Such prisoners, it is true, are not allowed to associate and live together while under trial. It was such association that enabled the undertrial prisoners in the first Alipore conspiracy case to plan and execute the murder of the approver Narendra Nath Gossain. Accordingly, since that date such prisoners have usually, and where the construction of the jail permitted, been kept each in a separate cell or room of his own. This procedure is in no sense improper. It is nowhere laid down either in the law or in the Jail Code that undertrial prisoners are entitled to confinement in association. Indeed the English prison rules are emphatic that undertrial prisoners shall be kept separate and shall not be permitted to communicate together lest they contaminate each other and defeat the ends of justice. In India the majority of the jails do not provide sufficient accommodation to allow of the separate confinement of under trials, and greater laxity has been allowed to prevail, but separate confinement where feasible is perfectly regular. Such separate confinement, however, does not amount to solitary confinement, which is awarded solely as a punishment. The essential difference is that in solitary confinement a prisoner is excluded not only from communication with, but from the sight of, other prisoners, whereas in separate confinement he is excluded from communication with other prisoners only; he is allowed exercise in a common exercise ground, and is allowed to have his meals in association with one or more other prisoners. The suggestion that these undertrials were subjected to the form of solitary confinement which is awarded as a punishment to convicts is entirely unfounded.

8. The names of the officers commended by the Inspector-General have been noted. The Lieutenant-Governor in Council desires to place on record his satisfaction at the able and careful manner in which the department has been administered during the year by Lieutenant-Colonel W. J. Buchanan, I.M.S.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Prisons for information and guidance.

Ordered, also, that a copy of this Resolution and a copy of the Report be submitted to the Government of India in the Home Department.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor in Council,

C. J. STEVENSON-MOORE,

Chief Secretary to the Government of Bengal.
